BICENTENNIAL PROGRAM AT THE MAA MEETING IN SAN ANTONIO, TEXAS 24-26 JANUARY 1976

The program includes the following historical papers:

- Mathematics in colonial America* by D. J. Struik,
- Mathematics in America: the first hundred years* by Judith V. Grabiner,
- Some leaders in American mathematics* by Garrett Birkhoff,
- American mathematics from 1940 to day before yesterday* by P. R. Halmos,
- Mathematics and the government: the post-war years as augury of the future* by Mina S. Rees,
- The history of computing in the United States* by R. W. Hamming,
- The bomb, sputnik, computers, and European mathematicians* by P. D. Lax,
- Probability theory: reflections on the past and speculations on the future* by Mark Kac.

(More MEETINGS on p. 54)
